

## PROGRAMME SHORT COMMUNICATIONS EQUINE

Thursday 11, April 2019

EQUINE CLINICAL RESEARCH SESSIONS (BEVA Award and EFO Award)

- 14.00-14.12 **Aminoglycoside antibiotics; still essential in equine practice?**  
Adam Redpath  
(Winner of the Voorjaarsdagen Award for Clinical Research at the BEVA Congress 2018)
- 14.12-14.24 **Postpartum uterine rupture: standing laparoscopic repair in three mares**  
Astrid Rijkenhuizen
- 14.24-14.36 **Acute phase proteins, proinflammatory cytokines and cardiac troponin I in horses with strangles**  
Wael El-Deeb
- 14.36-14.48 **Validation of the eye signs occurrence as the anesthesia depth indicator during general anesthesia in horses**  
Olga Drewnowska
- 14.50-14.55 *5 min Coffee break*
- 14.55-15.07 **Bayesian comparison of transcranial magnetic stimulation, cervical radiography and clinical examination to diagnose spinal cord dysfunction in horses**  
Joke Rijckaert
- 15.07-15.19 **A 12-lead electrocardiogram interpretation algorithm to determine the anatomical site of origin of atrial premature depolarizations in horses: preliminary data**  
Glenn Van Steenkiste
- 15.19-15.31 **Coxiella burnetii infection in horses: seroprevalence, environmental exposure and clinical expression**  
Isabelle Desjardins
- 15.31-15.43 **Differences in cardiovascular physiology between Friesian horses and Warmblood horses**  
Lisse Vera
- 15.45-16.10 *25 min Coffee break*

- 16.10-16.22 **Evaluation of glycemic carbohydrate formulations for assessment of insulin dysregulation in equines**  
Tobias Warnken
- 16.22-16.34 **Minimal occlusive intracuff pressures of silicone endotracheal tubes used in equine anaesthesia**  
Lidwien Fabius
- 16.34-16.46 **Case series of gastric squamous cell carcinoma in the horse: 6 cases**  
Gloria Rocafort Ferrer
- 16.46-16.58 **Lameness scoring of horses trotting on a hard straight line by visual observation compared to objective gait analysis**  
Tijn Spoormakers
- 17.00-17.05 *5 min Coffee break*
- 17.05-17.17 **Therapeutic effect of umbilical cord serum eyedrops for corneal epithelial defect: a pilot study**  
Xavier Peyrecave
- 17.17-17.29 **Conservative treatment of minimally displaced midbody fractures of the proximal sesamoid bone in 8 horses**  
Gustaf Croon
- 17.29-17.41 **Evaluation of a combined hematology and clinical chemistry blood test to assess fitness in standardbreds used for harness racing**  
Petra Witt
